

Our TechnoPolo Resort & Country Club project continues to move forward.

On December 3, we executed the agreement with RENATA for the construction of buildings in the Residential Zone.

The agreement provides for the construction of 5 three-story buildings (ground floor and two upper floors), with one-room, two-room, and three-room apartments. The covered areas range from 40 m<sup>2</sup> to 120 m<sup>2</sup>.

The work has a total covered area of 12,200 m<sup>2</sup>, distributed among 108 apartments carefully designed with TechnoPolo's exclusive style.

The term for completion is 48 months. The first stage lasts for 30 months, starting on March 15, 2022 —the official project launch date—, while the second stage lasts for 18 months, starting in 2024. That year, our TechnoPolo project will reach a milestone, as construction of the first houses will also be completed, and the country club will receive its first residents.
